

# TRIUNFO SANITATION DISTRICT

## NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2015 and 2014

---

### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 1. Reporting Entity

Triunfo Sanitation District (District) was organized on November 12, 1963, as a special district under the County Sanitation District Act, State of California Health & Safety Code Section 4700 et seq., to provide sanitation services for the southeastern portion of Ventura County, adjacent to the Los Angeles County line. The District Board is comprised of five directly-elected members-at-large. On October 12, 1964, the District and Las Virgenes Municipal Water District (LVMWD) entered into a joint powers agreement establishing a Joint Venture (LVMWD/TSD Joint Venture) to construct, operate, maintain and provide for a regional sewerage system to serve the area within the two districts. The two directly elected Board members-at-large are employees of the District. The District contracts with Ventura Regional Sanitation District for management, engineering, operations & maintenance, and financial services.

The criteria used in determining the scope of the financial reporting entity is based on the provisions of Governmental Accounting Standards Board (GASB) Statements No. 14, *The Financial Reporting Entity*, No. 39, *Determining Whether Certain Organizations Are Component Units* (an amendment of No. 14) and No. 61, *The Financial Reporting Entity: Omnibus – An Amendment of GASB Statements No. 14 and No. 34*. The District is the primary governmental unit based on the foundation of a separately appointed governing board. Component units are legally separate organizations for which the governing board of the primary government is financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and: 1) The primary government and the component unit have a financial benefit or burden relationship; or 2) Management of the primary government have operational responsibility for the activities of the component unit.

The Triunfo Public Facilities Corporation (Corporation) was formed on June 30, 1987, to facilitate the issuance of certificates of participation for the acquisition, construction, operation and maintenance of facilities, equipment, or other property needed by the District and leasing or selling such property to the District and as such has no employees or other operations. Although the Corporation is legally separate, it is included as a blended component unit of the District, as it is in substance part of the District's operations and the District's Board is also the governing board of the Corporation. No separate financial statements are prepared for the Corporation.

#### 2. Measurement Focus and Basis of Accounting

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs of providing water to its customers on a continuing basis be financed or recovered primarily through user charges (charges for services), capital grants and similar funding. Revenues and expenses are recognized on the full accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred, regardless of when the related cash flows take place.

## NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2015 and 2014

---

Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. The principal operating revenues of the Triunfo Sanitation District of the potable, recycled, and wastewater services are charges to customers for sales and services. The District also recognizes the tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then, unrestricted resources, as they are needed.

Each year, District staff prepares an annual budget. This annual budget, as adopted by the District Board of Directors is used for planning, serves as a basis for monitoring financial progress, and determines future service charge rates. During the fiscal year, the budget may be amended as circumstances or levels of operations dictates.

### 3. Financial Reporting

The District's basic financial statements are presented in conformance with the provisions of GASB Statement No. 34, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments.*" (GASB No. 34), as amended by GASB Statement No. 63, "*Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position.*" This statement established revised financial reporting requirements for state and local governments throughout the United States for the purpose of enhancing the understandability and usefulness of financial reports.

GASB No. 34 and its related GASB pronouncements provide for a revised view of financial information and restructure the format of financial information provided prior to its adoption. A statement of net position replaces the balance sheet and reports assets, liabilities, and the difference between them as net position, not equity. A statement of revenues, expenses and changes in net position replaces both the income statement and the statement of changes in retained earnings and contributed capital. GASB No. 34 also requires that the statement of cash flows be prepared using the direct method. Under the direct method, cash flows from operating activities are presented by major categories.

### 4. Assets, Liabilities, and Net Position

**Cash and Investments** – The District's cash and investments are governed by the District's Investment Policy and in compliance with the California Government Code. For purposes of reporting cash flows, the District considers cash and funds invested in the State of California Local Agency Investment Fund (LAIF), the Ventura County Treasury Pool (VCTP) and money market funds to be cash equivalents. In addition, all investments with an original maturity of three months or less when purchased are considered cash equivalents.

### NOTES TO THE FINANCIAL STATEMENTS

**JUNE 30, 2015 and 2014**

---

Investments are generally stated at fair value, which is based on quoted market prices as of the valuation date. The gain/loss resulting from valuation is reported in the revenue account "Interest and Investment Earnings" on the statements of revenues, expenses and changes in net position.

**Restricted assets** – Amounts shown as restricted assets have been restricted for customer deposits, prepaid sewer connection fees for the Lake Sherwood project and reserve fund for the Oak Canyon Reservoir Installment Purchase Financing.

**Accounts receivable water sales and services** – These receivables are comprised of services provided to water customers in the Oak Park service area.

**Accounts receivable sanitation fees** – These receivables are comprised of services provided to wastewater customers throughout the District and potable and reclaimed water customers of the District's Oak Park Water Service.

**Advance deposits - investment in LVMWD/TSD Joint Venture** – Pursuant to the Joint Powers Agreement, each participant is required to maintain advance deposits with the LVMWD/TSD Joint Venture for the following purposes:

**Operating Reserve Advance Account** – Both participants are required to advance amounts estimated to provide for three months operating expenses. The District's share of operating reserve advance balances at June 30, 2015 and 2014 were \$1,061,709 and \$1,061,709, respectively.

**Construction Advance Account** – Cash flow during construction is proportionately shared by both participants. Amounts are advanced to the LVMWD/TSD Joint Venture to meet construction cash flow requirements. The District's share of construction advance balances at June 30, 2015 and 2014 were \$190,448 and \$19,083, respectively.

**Replacement Reserve Advance Account** – Both participants are required to advance amounts for the cost to replace existing assets. The District's share of replacement reserve advance balances at June 30, 2015 and 2014 were \$1,049,563 and \$805,219, respectively.

**Water-in-storage inventory** - Potable water available within the distribution pipelines and storage tanks is estimated and valued by the conversion of cubic feet to acre-feet and multiplied by current cost.

**Prepaid and other** - Certain payments to vendors reflects costs or deposits applicable to future accounting periods and are recorded as prepaid.

## NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2015 and 2014

---

**Capital assets** - Property and equipment with a cost of \$5,000 or more and a life greater than one year is capitalized and stated at cost, except for the portions acquired by contribution, which are reported at fair market value on the date received. Interest costs applicable to qualifying assets are capitalized as part of the cost of the assets. Interest earned on temporary investment of loan proceeds is offset against the interest costs capitalized. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized.

Depreciation is computed using the straight-line method over estimated useful lives of the assets as shown below:

|                              |               |
|------------------------------|---------------|
| Equipment                    | 5 to 25 years |
| Potable water system         | 40 years      |
| Recycled water system        | 40 years      |
| Wastewater collection system | 50 years      |

**Construction in progress** - Costs associated with developmental stage projects are accumulated in an in-progress account until the project is fully developed. Once the project is complete, the entire cost of the project is transferred to a capital asset account and depreciated over the estimated useful life.

**Accounts payable and accrued expenses** – Short-term liability for amounts owed to suppliers, contractors and other organizations that have provided goods and services to the District by the end of the fiscal year for which payment had not been made. All properly documented payables and contract payments are processed within thirty days of invoice. In addition, an estimated loss is recorded in this category, net of insurance coverage and inclusive of an estimate for incurred but not reported claims, when it is probable that a claim liability has been incurred and the amount of the loss can be reasonably estimated.

**Long-term obligations** – Long-term debt is recognized as a liability of the enterprise fund when incurred, and is reported on the balance sheet as current and long-term portions.

**Developer refund agreements** – Long-term payables paid at the rate of one-fortieth of the total agreement amount with no interest accruing or paid.

**Customer deposits** – Deposits are required on all new customer accounts at start of service. The deposit shall be returned to the customer provided the customer's account has been in good standing for twelve consecutive months.

**Unearned revenue** – In October 2005, Sherwood Development Company, L.P. (Sherwood), paid the District \$666,373 in advance for the connection and inspection fees for Tract 4409, Phases 4 through 8 with an estimated total of sixty-five (65) lots. In 2006, the County of Ventura approved the tract map and Sherwood is expecting to start construction from between five to ten years, or sooner.

**Net Position** - Net position reported on the statement of net position is displayed in three components: net investment in capital assets; restricted net position; and unrestricted net position. These three components are defined as follows:

# TRIUNFO SANITATION DISTRICT

## NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2015 and 2014

---

*Net investment in capital assets* – This component of net assets consists of capital assets, net of accumulated depreciation and reduced by any debt outstanding against the acquisition, construction or improvement of those assets.

*Restricted net position* – This component of net position consists of restricted assets reduced by liabilities related to those assets. Constraints on net position can be used through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

*Unrestricted net position* – This component of net position consists of net position that do not meet the definition of restricted or net investment in capital assets.

*Use of estimates* – The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in net position during the reporting period. Actual results could differ from those estimates.

### B. DETAILED NOTES

#### 1. Cash and Investments

The District has adopted the provision of Statement No. 31 of the Governmental Accounting Standards Board, “*Accounting and Financial Reporting for Certain Investments and for External Investment Pools*” (GASB 31), and Statement No. 40 of the Governmental Accounting Standards Board, “*Deposit and Investment Risk Disclosures*” (GASB 40), which require that certain investments and external investment pools be reported at fair market value and disclosure be made of certain deposit and investment risks.

The District’s investment policy is governed by and in compliance with the California Government Code. The investment policy’s objectives are to provide safety of principal, maintain liquidity, and earn a competitive yield. The District is authorized to invest funds in the California State Treasurer’s Local Agency Investment Fund (LAIF), Ventura County Treasurer’s Investment Pool (County Pool), and other qualified investments in accordance with the District’s investment policy.

#### *Cash and Cash Equivalents*

Cash and investments as of June 30 are classified in the accompanying financial statements as follows:

| Total Cash and Cash Equivalents     | <u>\$ 10,268,889</u> | <u>\$ 13,047,912</u> |

At June 30, 2015, and 2014, the carrying amount of cash in bank deposits was \$1,043,570 and \$401,792 respectively, and the corresponding bank balance was \$1,088,343 and \$488,584, respectively. The difference between the carrying amount of cash in banks and the corresponding bank balance is due to deposits in transit and outstanding checks. All deposits are insured or collateralized.

***Investments Authorized by the California Government Code and the District's Investment Policy***

The table below identifies the investment types that are authorized by the District in accordance with the California Government Code (or District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and the concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

***Interest Rate Risk***

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio matures or comes close to maturity evenly over time as necessary to provide requirements for cash flow and liquidity needed for operations. Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investment by maturity date:

| <b>Investments at June 30, 2015:</b> | Fair Value          | <b>Remaining<br/>Maturity<br/>(In Months)</b> |

***Credit Risk***

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the District’s investment policy and the actual rating as of year end for each investment type.

Credit ratings of investments and cash and cash equivalents as of year-end, were as follows:

| Investment Type                     | Total as of<br>June 30, 2015 | Minimum<br>Legal<br>Rating | Not<br>Rated |
|-------------------------------------|------------------------------|----------------------------|--------------|

| Local Agency Investment Fund (LAIF) | 613,992                      | N/A                        | 613,992      |
| Ventura County Treasury Pool        | 8,236,921                    | N/A                        | 8,236,921    |
| Total                               | \$ 9,225,319                 |                            | \$ 9,225,319 |

| Investment Type                     | Total as of<br>June 30, 2014 | Minimum<br>Legal<br>Rating | Not<br>Rated  |
|-------------------------------------|------------------------------|----------------------------|---------------|
| Deutsch Bank                        | \$ 2,535,000                 | N/A                        | \$ 2,535,000  |
| Local Agency Investment Fund (LAIF) | 612,447                      | N/A                        | 612,447       |
| Ventura County Treasury Pool        | 9,498,673                    | N/A                        | 9,498,673     |
| Total                               | \$ 12,646,120                |                            | \$ 12,646,120 |

***Concentration of Credit Risk***

The investment policy of the District contains no limitation on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Other than amounts invested in the Local Agency Investment Fund (LAIF) and the Ventura County Treasurer Investment Pool, there are no investments in any one issuer that represent 5% or more of total District investments as of June 30, 2015 and 2014.

***Custodial Credit Risk***

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the Triunfo Sanitation District investment policy do not contain legal or policy requirements that limit the exposure to custodial credit risk for deposits, other than the following provisions: The California Government Code requires that financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The fair value of pledged securities must equal 110% of the District’s deposits.

## TRIUNFO SANITATION DISTRICT

### NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2015 and 2014

---

California law allows financial institutions to secure District's deposits by pledging first trust deed mortgage notes having a value of 150% of the District's total deposits.

The custodial risk for investment is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in the possession of another party. All securities held in the Ventura County Treasurer investment pool are deposited in trust for safekeeping with a custodial bank different from the County's primary bank. Securities are not held in broker accounts.

#### *Investment in Ventura County Treasurer Investment Pool*

The District is a voluntary participant in the Ventura County Treasurer's investment pool, which complies with the requirements of the California Government Code. Investments are stated at fair value. The fair value of the District's position in the pool is the same as the value of the pool shares. The District maintains a separate balance and investment income is allocated on a pro rata basis. Because the District's deposits are maintained in a recognized pooled investment fund under the care of a third party and the District's share of the pool does not consist of specific, identifiable investment securities owned by the District, no disclosure of the individual deposits and investments is required under generally accepted accounting principles. The District's deposits in the fund are considered highly liquid. Additional information about the Ventura County investment pool can be obtained from the County of Ventura, California – Treasurer-Tax Collector, 800 South Victoria Avenue, California 93009.

#### *Investment in State Investment Pool*

The District is a voluntary participant in the Local Agency Investment Fund (LAIF). LAIF is an external investment pool that is not registered with the Securities and Exchange Commission. It is, however, regulated by the California Government Code. The State of California's LAIF has oversight by the Local Agency Investment Advisory Board, which consists of the State Treasurer, two qualified members in the field of investment or finance, and two qualified government members of the state. Investments are stated at fair value and investment income is allocated on a pro rata basis. The fair value of the District's position in the pool is the same as the value of the pool shares. The District maintains a separate balance and investment income is allocated on a pro rata basis. Because the District's deposits are maintained in a recognized pooled investment fund under the care of a third party and the District's share of the pool does not consist of specific, identifiable investment securities owned by the District, no disclosure of the individual deposits and investments is required under generally accepted accounting principles. The share value of the District's investment in LAIF is \$613,992 and \$612,447 at June 30, 2015 and 2014, respectively. The deposits in the fund are considered highly liquid.

The total amount invested by all public agencies in LAIF at June 30, 2015 and 2014 is \$21.5 billion and \$21.1 billion, respectively. LAIF is a part of the California Pooled Money Investment Account (PMIA), which at June 30, 2015 and 2014 had a balance of \$69.6 billion and \$64.8 billion, respectively. Of those amounts, 2.08% and 1.11%, respectively, is invested in medium-term and short-term structured notes and asset-backed securities. The average maturity of PMIA investments is 239 days and 232 as of June 30, 2015 and 2014.

### 3. Accounts Receivable

Water sales and services, net – These receivables are comprised of services provided to customers in the Oak Park service area and are shown net of an allowance for uncollectible accounts. The allowance totals \$9,870 and \$12,700 at June 30, 2015 and 2014, respectively.

Sanitation fees – The District annually submits a list of customers and service charge amounts to the County of Ventura (County) who, in accordance with the California Government Code, adds these amounts to the annual property tax billing; then collects and distributes the amounts received to the District. Unpaid property tax bills become a lien on the property and, ultimately are collected by the County and paid to the District. Sewer line mitigation consists of amounts billed to a developer to repair sewer lines placed in service, but not repaired in accordance with District inspection reports during the initial one-year warranty period. Receivable amounts are shown net without an allowance for uncollectible accounts because all are deemed collectable.

Other, net – These receivables result from miscellaneous activities such as prior year taxes, cellular antenna site rental and reimbursed State mandated costs and are shown net of an allowance for uncollectible accounts. Receivable amounts are shown net without an allowance for uncollectible accounts because all are deemed collectable.

#### **5. Joint Venture**

The District and Las Virgenes Municipal Water District are parties to a joint exercise of powers agreement (LVMWD/TSD Joint Venture Agreement) to provide for construction, operation, maintenance and replacement of a joint sanitation system to serve the respective parties' needs. The LVMWD/TSD Joint Venture is governed by the individual Board of Directors of the two districts meeting in joint session and Pun & McGeady, LLP is the independent auditor. Equipment costs and contributions in aid of construction are shared in accordance with each district's capacity rights reserved in each component of the LVMWD/TSD Joint Venture system. While the districts own the system jointly, they each account for their share of its financing individually. Thus, the LVMWD/TSD Joint Venture itself has no long-term debt. Operating costs and local maintenance are prorated and billed to the districts in accordance with the average monthly flows contributed to the system. LVMWD is designated the Administering Agent for facilities located in Los Angeles County. The following is a condensed summary of audited financial information for the LVMWD/TSD Joint Venture as of and for the years ended June 30, 2015 and June 30, 2014:

**NOTES TO THE FINANCIAL STATEMENTS  
JUNE 30, 2015 and 2014**

**6. Long Term Obligations**

*2011 Bank of America, N.A. – Installment Purchase Agreement*

The District entered into an Installment Purchase Agreement with the Triunfo Public Facilities Corporation for \$7,760,000. The funds were received to provide financing for the acquisition and construction of a single 2.1 million gallon buried water storage tank located nearly due north of the intersection of Kanan Road and Churchwood Street on the northeast side of the ridge facing into Oak Canyon Community Park. The existing 1.0 million gallon water storage tank located southwest of the western terminus of Conifer Street will be demolished. Additionally, approximately four miles of existing water supply lines and a non-usable water tank and its pump station are being acquired through easement agreements and will be decommissioned. The Triunfo Public Facilities Corporation assigned all of its rights, title and interest in the Installment Purchase Agreement dated February 1, 2011 to Bank of America. Semiannual principal and interest payments of \$300,858 are due February 1 and August 1, commencing August 1, 2011 through February 1, 2031. Interest is at 4.68%. The District has pledged its Net Revenues for the repayment of the Installment Sale Agreement.

*2014 Bank of America, N.A. – Master Equipment Lease/Purchase Agreement*

The District entered into a Master Equipment Lease/Purchase Agreement with Bank of America, National Association. The funds were received to provide financing to replace all potable and recycled water meters with Automated Meters. This project will eliminate manually reading the meters and provide the District with timely and more accurate meter reading. Semiannual principal and interest payments of \$107,360 are due May 22 and November 22, commencing November 22, 2014 through May 22, 2029. Interest is at 3.24%. The District has pledged its Net Revenues for the repayment of the Master Equipment Lease/Purchase Agreement.

### 8. Management Agreement

The District has an agreement with the Ventura Regional Sanitation District (VRSD) for VRSD to provide staffing, management, operation and maintenance of facilities; to provide staffing for the administration and management of the District; and support services to the District Governing Board, as well as other closely-related services. The total cost of services paid by the District to VRSD in fiscal year 2015 was \$3,763,176 and \$3,279,609 in fiscal year 2014. The original agreement between the two agencies started back in September 1977. Since then, the two agencies have determined it would be to the mutual benefit of both parties to revise and/or amend the contract to reflect changes that have occurred during the past years. Under the agreement, the District has the right to evaluate the performance of VRSD's services under the agreement. The current contract expires on June 30, 2025. Both the District and VRSD may terminate this agreement for its convenience and without cause by giving the party one year prior written notice. In addition, both parties may also terminate this agreement in the event of a material default if such default remains uncured upon the expiration of sixty (60) days after receipt of written notice.

## C. OTHER INFORMATION

### 1. Risk Management

#### *Joint Powers Insurance Authority*

California Sanitation Risk Management Authority (CSRMA) is a joint powers authority (JPA) created to provide a self-insurance program to sanitation agencies in the State of California. CSRMA provides liability, property and workers' compensation insurance for approximately 58 sanitation agencies for losses in excess of the members' specified self-insurance retention levels. Individual claims (and aggregate public liability and property claims) in excess of specified levels are covered by excess insurance policies purchased from commercial carriers. A Board of Directors composed of members from participating districts governs CSRMA. The Board controls the operations of CSRMA, including selection of management and approval of operating budgets, independent of any influence by the members beyond their representation on the Board. Each member of CSRMA shares surpluses and deficiencies proportionate to its participation in CSRMA.

### ***Joint Venture Insurance***

The District is insured for a variety of potential exposures associated with the LVMWD/TSD Joint Venture. The LVMWD/TSD Joint Venture is a named insured in the liability and property insurance program of the LVMWD. LVMWD retained Argonaut Insurance Company, for general liability, property, inverse condemnation, auto and physical damage. In addition, reinsurance support for the program is provided by Swiss Reinsurance of America and Travelers Re. The coverage for the general liability provides \$11 million per occurrence and \$61 million in the aggregate with a \$50,000 deductible per occurrence. The coverage for the property provides \$61 million of coverage with a deductible of \$50,000 per occurrence.

Effective August 1, 2012, the LVMWD/TSD Joint Power's Authority retained ACWA/JPIA for its workers' compensation insurance coverage.

Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payable as of June 30, 2015 and 2014.

### **2. Commitments and Contingencies**

At June 30, 2015 and 2014, the District had no contractual commitments with outside firms for engineering, consulting, or other various supplies and services.

The District is involved in litigation encountered in the normal course of business. In certain of these matters, the defense costs and settlement costs, if any, are covered by the District's liability insurance policies. In the opinion of management, there is no pending litigation that would materially affect the District's liability insurance policies or financial position.

### **3. Subsequent events**

In March 2015, the Board unanimously approved a 6.5% wastewater rate increase effective July 1, 2015.

In May 2015, the Board unanimously approved a 4% recycled water rate increase effective July 1, 2015.

### NOTES TO THE FINANCIAL STATEMENTS

**JUNE 30, 2015 and 2014**

---

In June 2015, the Board declared and implemented Stage 2 of the Water Shortage Contingency Plan which includes water allocation to its customers effective immediately upon adoption on June 22, 2015.

In July 2015, the Board unanimously approved the Stage 2 potable water conservation rates included in the Water Shortage Contingency Plan including penalty charges for excessive water use effective September 2015 billing period.

In December 2015, the Board unanimously approved an \$0.11 per 100 cubic feet (HCF) as a pass through potable water fee increase to cover the Calleguas Municipal Water District's wholesale supply rate increase. The potable water rate increase is effective February 1, 2016.

In December 2015, the Board unanimously approved a \$0.09 per 100 cubic feet (HCF) as a pass through reclaimed water fee increase to cover the Calleguas Municipal Water District's wholesale reclaimed rate increase. The reclaimed water rate increase is effective February 1, 2016.

#### **D. NEW ACCOUNTING PRONOUNCEMENTS**

The Government Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2015, that have effective dates that may impact future presentations.

*GASB Statement 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments.* The requirements in this Statement improve financial reporting by 1) raising the category of GASB Implementation Guides in the GAAP hierarchy, thus providing the opportunity for broader public input on implementation guidance; 2) emphasizing the importance of analogies to authoritative literature when the accounting treatment for an event is not specified in authoritative GAAP; and 3) requiring the consideration consistency with the GASB Concepts Statements when evaluating accounting treatments specified in nonauthoritative literature. This statement became effective for the periods beginning after June 15, 2015. The District intends to implement the new requirement for the fiscal year 2015-16 financial statements to the extent that they are applicable to the District.

*GASB Statement 79, Certain External Investment Pools and Pool Participants.* The requirements of this Statement establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. The requirements of this Statement are effective for reporting periods beginning after June 15, 2015, except for certain provisions on portfolio quality, custodial credit risk and shadow pricing. Those provisions are effective for reporting periods beginning after December 15, 2015. The District intends to implement the new requirement for the fiscal year 2015-16 financial statements to the extent that they are applicable to the District.
