ORDINANCE NO. TSD-92

AN ORDINANCE OF THE TRIUNFO SANITATION DISTRICT ESTABLISHING A WATER CONSERVATION AND WATER SUPPLY SHORTAGE PROGRAM AND REGULATIONS

Section I: Title

This ordinance will be known at the Triunfo Sanitation District/Oak Park Water Service Water Conservation Program.

Section II: Findings

WHEREAS, a reliable minimum supply of potable water is essential to the public health, safety and welfare of the people and economy of the southern California region;

WHEREAS, Southern California is a semi-arid region and is largely dependent upon imported water supplies. A growing population, climate change, environmental concerns and other factors in other parts of the State and western United States, make the region highly susceptible to water supply reliability issues;

WHEREAS, careful water management that includes active water conservation measures not only in times of drought, but at all times, is essential to ensure reliable minimum supply of water to meet current and future water supply needs;

WHEREAS, Article X, Section 2 of the California Constitution declares that the general welfare requires that water resources be put to beneficial use, waste or unreasonable use or unreasonable method of use of water be prevented, and conservation of water be fully exercised with a view to the reasonable and beneficial use thereof;

WHEREAS, California Water Code Section 375 et seq. requires water suppliers to adopt and enforce a comprehensive water conservation program to reduce water consumption and conserve supplies;

WHEREAS, California Water Code section 350 et seq. authorizes any public entity, including a special district, to declare a water shortage emergency and, upon declaration of that emergency, adopt regulations and restrictions on the delivery and consumption of water in order to conserve water resources during the period of the emergency and until the supply of water available for distribution by the suppliers has been replenished or augmented;

WHEREAS, the adoption and enforcement of water conservation and supply shortage program is necessary to manage the District's potable water supply in the short- and long-term and to avoid or minimize the impacts of drought and shortage within the District. Such a program is essential to ensure a reliable and sustainable minimum supply of water for the public health, safety and welfare; and

WHEREAS, based upon the above findings, the District's legal counsel advises, and the Board finds, that actions taken pursuant to this ordinance are categorically exempt from CEQA according to 14 California Code of Regulations 15301 and 15307.

NOW, THEREFORE, BE IT RESOLVED AND DETERMINED THAT THE BOARD OF THE TRIUNFO SANITATION DISTRICT DOES ORDAIN AS FOLLOWS:

Section III. Declaration of Purpose and Intent

- a. The purpose of this ordinance is to establish a water conservation and supply shortage program that will reduce water consumption within the District through conservation, enable effective water supply planning, assure reasonable and beneficial use of water, prevent waste of water, and maximize the efficient use of water within the District to avoid and minimize the effect and hardship of water shortage to the greatest extent possible.
- b. This ordinance establishes three stages of water supply shortage response actions to be implemented during times of declared water shortage or declared water shortage emergency, with increasing restrictions on water use in response to worsening drought or decreasing supplies and emergency conditions.

Section IV. Definitions

- a. The following words and phrases whenever used in this ordinance shall have the meaning defined in this section:
 1. "District" means the Triunfo Sanitation District/Oak Park Water Service.
 2. "Account" means a District record that identifies the meters through which water is served to a particular property, the name of the person requesting the service, the location of the property and the person responsible for payment. Each such Account is identified by an account number.
 3. "Landscape Irrigation System" means an irrigation system with pipes, hoses, spray heads, or sprinkling devices that are operated by hand or through an automated system.
 4. "Person" means any natural person or persons, corporation, public or private entity, governmental agency or institution or any other user of water provided by the District.
 5. "Potable Water" means water which is suitable for drinking.
 6. "Recycled Water" means the reclamation and reuse of non-potable water for beneficial use.

Section V. Application

- a. The provisions of this ordinance apply to any person in the use of any potable water provided by the District.
- b. The provisions of this ordinance do not apply to uses of water necessary to protect public health and safety or for essential government services, such as police, fire and other similar emergency services.
- c. The provisions of this ordinance do not apply to the use of recycled water.
- d. The provisions of this ordinance do not apply to the use of water by commercial nurseries and commercial growers to sustain plants, trees, shrubs, crops or other vegetation intended for commercial sale.
- e. This ordinance is intended solely to further the conservation of water. It is not intended to implement any provision of federal, state, or local statutes, ordinances, or regulations

relating to protection of water quality or control of drainage or runoff. Refer to the local jurisdiction or Regional Water Quality Control Board for information on any state based ordinances and stormwater management plans.

Section VI: Stage 1 Water Supply Shortage

- a. A Stage 1 Water Supply Shortage condition exists when the Board of Directors determines, in its sole discretion, that due to drought or other supply reductions, a consumer demand reduction is required in order to ensure that sufficient supplies will be available to meet anticipated demands. Upon the declaration of a Stage 1 Water Supply Shortage condition, the District shall implement the mandatory Stage 1 conservation measures identified in this section. These requirements are in addition to the water conservation items stated in Ordinance No. TSD-66.
- b. **Water Conservation Measures:** The following water conservation requirements apply during a declared Stage 1 Water Supply Shortage:
 1. **Limits on Watering:** Watering or irrigation of lawn, landscape or other vegetated area with potable water is limited to 3 days per week. During the months of November through March, watering or irrigation of lawn, landscape or other vegetated area with potable water is limited to no more than 2 days per week. This provision does not apply to landscape irrigation systems that exclusively use very low-flow drip type irrigation systems when no emitter produces more than 2 gallons of water per hour. This provision does not apply to use of a hand-held bucket or similar container, a hand-held hose equipped with a positive self-closing water shut-off device, or for very short periods for the express purpose of adjusting or repairing an irrigation system.
 2. **Obligation to Fix Leaks, Breaks or Malfunctions:** All leaks, breaks, or other malfunctions in the water user's plumbing, distribution, or irrigation system must be repaired within seventy two (72) hours of observation and notification by the District.
 3. **Use only recycled water for construction site dust control, consolidation of backfill.**
 4. **Other Prohibited Uses:** The Board of Directors may implement other prohibited water uses as determined by the District after notice to customers.

Section VII. Stage 2 Water Supply Shortage

- a. A Stage 2 Water Supply Shortage condition exists when the Board of Directors determines, in its sole discretion, that due to drought or other supply reductions a consumer demand reduction is required in order to ensure that sufficient supplies will be available to meet anticipated demands. Upon the declaration of a Stage 2 Water Supply Shortage condition, the District shall implement the mandatory Stage 2 conservation measures identified in this section.
- b. **Conservation Measures:** In addition to the prohibited uses of water identified in Section VI, the following additional water conservation requirements apply during a declared Stage 2 Water Supply Shortage:
 1. **Limits on Watering:** Watering or irrigating of lawn, landscape or other vegetated area with potable water is restricted in accordance with the allotments in the latest version of the Triunfo Sanitation District Oak Park Water Shortage Contingency Plan (Water Shortage Contingency Plan). Watering or irrigation of lawn, landscape or other vegetated area with potable water is limited to 2 days per week. During the months

of November through March, watering or irrigation of lawn, landscape or other vegetated area with potable water is limited to no more than 1 day per week. This provision does not apply to landscape irrigation systems that exclusively use very low-flow drip type irrigation systems when no emitter produces more than 2 gallons of water per hour. This provision does not apply to use of a hand-held bucket or similar container, or for very short periods for the express purpose of adjusting or repairing an irrigation system.

2. **Obligation to Fix Leaks, Breaks or Malfunctions:** All leaks, breaks, or other malfunctions in the water user's plumbing, distribution, or irrigation system must be repaired within forty eight (48) hours of observation and notification by the District.
3. **No filling, cleaning and/or refilling of decorative fountains, ornamental lakes or ponds** except to the extent needed to sustain aquatic life, provided that such animals have been actively managed within the water feature prior to declaration of this supply shortage stage.
4. **Residential car washing prohibited.** Use car washes available with water recycling systems.
5. **The filling of any new or existing residential pools or outdoor spas is prohibited.**
6. **Planting of new turf grass is prohibited.**
7. **Outdoor evaporative mist coolers are prohibited.**
8. **Main line flushing is allowed for emergency purposes only.**
9. **Other Prohibited Uses:** The District may implement other prohibited water uses as determined by the Board of Directors, after notice to Customers.

c. Water Allocations

Water Allocations/Water Budget: The District will implement the water allocation plan in the most recent Water Shortage Contingency Plan for residential customers. The District must provide notice of the allocation by including it in the regular billing statement to which the District customarily mails the billing statements for on-going water service. Penalties will be levied on Accounts that exceed their water allocation. (See Section XI.c.)

Section VIII. Stage 3 Water Supply Shortage – Emergency Condition

- a. A Stage 3 Water Supply Shortage condition is also referred to as an "Emergency" condition. A Stage 3 Water Supply Shortage condition exists when the Board of Directors declares a water shortage emergency in a manner and upon the grounds set forth in California Water Code Section 350 et seq.

Upon the declaration of a Stage 3 Water Supply Shortage condition pursuant to California Water Code Section 350 et seq., the District will implement the mandatory Stage 3 conservation measures identified in this section.

- b. **Additional Conservation Measures:** In addition to the prohibited uses of water identified in Sections VI and VII the following water conservation requirements apply during a declared Stage 3 Water Supply Shortage Emergency:
 1. **Limited Watering or Irrigating:** Watering or irrigating of lawn, landscape or other vegetated area with potable water is restricted in accordance with the allotments in the Water Shortage Contingency Plan for residential customers. This restriction does not apply to the use of recycled water or to the following categories of use, subject to the hardship waiver provisions as described in Section X:
 - a. Maintenance of existing landscape necessary for fire protection;

- b. Maintenance of existing landscape for soil erosion control;
 - c. Maintenance of plant materials identified to be rare or essential to the well-being of protected species;
 - d. Maintenance of landscape within active public parks and playing fields, daycare centers, golf course greens, and school grounds, provided that such irrigation does not exceed 2 days per week;
 - e. Actively irrigated environmental mitigation projects.
2. **Obligation to Fix Leaks, Breaks or Malfunctions:** All leaks, breaks, or other malfunctions in the water user's plumbing, distribution, or irrigation system must be repaired within twenty four (24) hours of observation and notification by the District.
 3. **Other Prohibited Uses:** The District may implement other prohibited water uses as determined by the Board of Directors, after notifying customers.

c. Water Allocations

Water Allocations/Water Budget: The District will implement the water allocation plan in the most recent Water Shortage Contingency Plan for residential customers. The District must provide notice of the allocation by including it in the regular billing statement to which the District customarily mails the billing statements for on-going water service. Penalties will be levied on Accounts that exceed their water allocation. (See Section XI.c.)

Section IX. Procedures for Determination/Notification of Water Supply Shortage

- a. **Determination and notification of a Stage 1 or Stage 2, Water Supply Shortage condition:** The existence of a Stage 1 or Stage 2 Water Supply Shortage condition will be declared by resolution of the Board adopted at a regular or special public meeting held in accordance with State law. The mandatory conservation measures applicable to Stage 1 and Stage 2 Water Supply Shortage conditions, respectively, shall take effect on the tenth day after the date the shortage condition is declared. Within five days following the declaration of the shortage condition, the District shall publish a copy of the resolution once in a newspaper used for publication of official notices.

If the Board of Directors establishes a water allocation, the District shall provide notice of the allocation by including it in the regular billing statement or by another mailing to the address to which the District customarily mails the billing statement for fees or charges for on-going water service. A water allocation shall be effective on the fifth day following the date of mailing or at such later date as specified in the notice.

- b. **Determination and notification of a Stage 3 Water Supply Shortage condition ("Emergency" condition):** The existence of a Stage 3 Water Supply Shortage condition may be declared in accordance with the requirements and procedures specified in California Water Code Section 350 et seq.

The mandatory conservation measures applicable to a Stage 3 Water Supply Shortage condition shall take effect immediately upon the Board of Directors declaration of a "Water Shortage Emergency" pursuant to California Water Code Section 350 et seq. As soon as practicable following the Board's declaration of a "Water Shortage Emergency," the District shall publish a copy of the declaration once in a newspaper used for publication of official notices.

If the Board of Directors establishes a water allocation, the District shall provide notice of the allocation by including it in the regular billing statement or by another mailing to the

address to which the District customarily mails the billing statement for fees or charges for on-going water service. A water allocation shall be effective on the fifth day following the date of mailing or at such later date as specified in the notice.

Section X. Health and Safety Waiver

- a. **Threat to Health and Safety:** If a specific requirement of this ordinance would directly and negatively impact the health and safety of a water user permanently residing on property subject to this ordinance, then the property owner may apply for a waiver of the requirements of this ordinance as provided in this section.
- b. **Written Finding:** The waiver may be granted or conditionally granted to the property owner only upon a written finding by the General Manager of the existence of facts demonstrating a direct, negative impact on the health and safety of the water user.
 1. **Application:** Application for a health and safety waiver shall be on a form prescribed by the District and shall be accompanied by a non-refundable processing fee in an amount set by resolution of the Board.
 2. **Supporting Documentation:** The application must include factual evidence demonstrating that the enforcement of the specific requirements of this ordinance will result in a direct and negative impact on the health and safety of a water user permanently residing on the property due to unique circumstances specific to that water user. That evidence may include a statement from a licensed California health professional or other licensed California professional qualified to evaluate the health and safety threats of this ordinance on the water user.
 3. **Required Findings for Health or Safety Waiver:** An application for a health and safety waiver shall be denied unless the appropriate authority finds, based on the information provided in the application, supporting documents, or such additional information as may be requested, and on water use information for the property as shown by the records of the District or its Agent, all of the following:
 - a. That the health and safety waiver does not constitute a grant of special privilege inconsistent with the limitations upon other residents and businesses;
 - b. That because of special circumstances applicable to the water user, the strict application of this ordinance to the property owner would directly and negatively impact the health or safety of the water user; and,
 - c. That the authorizing of such waiver will not be of substantial detriment to adjacent properties, and will not materially affect the ability of the District to effectuate the purpose of this ordinance and will not be detrimental to the public interest.
 4. **Approval Authority:** The General Manager (or designee) shall exercise approval authority and act upon any completed application no later than ten (10) days after submittal and may approve, conditionally approve, or deny an application for a health and safety waiver. The property owner requesting the health and safety waiver shall be promptly notified in writing of any action taken. Unless specified otherwise at the time a health and safety waiver is approved, the health and safety waiver applies to

the subject property during the term of the mandatory water supply shortage condition.

5. **Appeals to the Board:** An applicant can appeal a decision or condition of the General Manager on a health and safety waiver application to the TSD Board within 10 days of the decision upon written request to the Clerk of the Board for a hearing. The request shall state the grounds for the appeal. At a public meeting, the TSD Board shall act as the approval authority and review the appeal following the regular waiver procedure. The decision of the TSD Board is final.

Section XI. Fines and Penalties

- a. **Misdemeanor:** Any violation of District ordinances may be prosecuted as a misdemeanor punishable by imprisonment in the county jail for not more than thirty (30) days, or by a fine not exceeding one thousand dollars (\$1,000), or by both.
- b. **Fines:** Fines for failure to comply with the water conservation measures in the ordinance shall be as follows:

Stage 1

1. **First Violation:** The District shall issue a written courtesy door hanger describing the violation and deliver a copy of this ordinance by mail.
2. **Second Violation:** A second violation within the preceding twelve (12) calendar months is punishable by a fine not to exceed one hundred dollars (\$100.00).
3. **Third Violation:** A third violation within the preceding twelve (12) calendar months is punishable by a fine not to exceed one hundred and fifty dollars (\$150.00).
4. **Fourth Violation:** A fourth violation is punishable by a fine not to exceed two hundred dollars (\$200.00).
5. **Fifth and Subsequent Violations:** A fifth and subsequent violation is punishable by a fine not to exceed two hundred and fifty dollars (\$250.00).
 - a. **Water Flow Restrictor:** In addition to any fines, the District may install a water flow restrictor device of approximately one gallon per minute capacity for services up to one and one-half inch size and competitively sized restrictors for larger services after written notice of intent from the General Manager to install a restrictor for a minimum of forty-eight (48) hours.

Stages 2 & 3

1. **First Violation:** The first violation is punishable by a fine not to exceed one hundred dollars (\$100.00).
2. **Second Violation:** A second violation within the preceding twelve (12) calendar months is punishable by a fine not to exceed two hundred dollars (\$200.00).
3. **Third Violation:** A third violation within the preceding twelve (12) calendar months is punishable by a fine not to exceed two hundred fifty dollars (\$250.00).
4. **Fourth Violation:** A fourth violation is punishable by a fine not to exceed three hundred fifty dollars (\$350.00).
5. **Fifth and Subsequent Violations:** A fifth and subsequent violation is punishable by a fine not to exceed five hundred dollars (\$500.00).
 - a. **Water Flow Restrictor:** In addition to any fines, the District may install a water flow restrictor device of approximately one gallon per minute capacity for services up to one and one-half inch size and competitively sized restrictors for

larger services after written notice of intent from the General Manager to install a restrictor for a minimum of forty-eight (48) hours.

b. **Termination of Service:** In addition to any fines and the installation of a water flow restrictor, the District may disconnect and/or terminate a customer's water service.

c. **Penalties for Excessive Consumption:** Excessive water use penalties will be charged in addition to the regular fee structure based on total consumption. If an Account uses more water during any Monthly Billing Cycle than has been allocated to that Account, such excess use shall constitute a violation of this Ordinance, and the penalty rates for excessive consumption is as follows:

Level 1	Level 2	Level 3
0 - <6 HCF	6 - <11 HCF	11+ HCF
Penalty based on 1X Tier 1 water rate	Penalty based on 2X Tier 2 water rate	Penalty based on 3X Tier 3 water rate

Hundred Cubic Feet (HCF) = 100 cubic feet of water = 748 gallons

Example: Allocation limit is 6 HCF, actual usage for the monthly billing cycle is 14 HCF. Penalties would be calculated as follows:

	HCF	Water Conservation Rates	Total Amount Due
Water Conservation Charge:			
Tier 1	6	\$ 4.13	\$ 24.78
Tier 2	8	\$ 5.22	\$ 41.76
Tier 3	0	\$ 6.68	\$ 0.00
Sub-Total	14		\$ 66.54
Penalty Charges:			
Level 1	5	\$ 4.13	\$ 41.30
Level 2	3	\$ 10.44	\$ 46.98
Level 3	0	\$ 20.04	\$ 0.00
Sub-Total	8		\$ 88.28
Total Amount Due			\$154.82

In addition to the penalty rates, any Account exceeding their allocation four times in any twelve month period may result in the District installing a water flow restrictor device. (See Section XI.b.5.a.) An Account can request removal of the flow restrictor device following three months of water allocation compliance. Removal requests must be made in writing and addressed to the General Manager, Triunfo Sanitation District, 1001 Partridge Drive, Suite 150, Ventura, California, 93003-0704.

d. **Cost of Flow Restrictor and Disconnecting Service:** A person or entity that violates this ordinance is responsible for payment of the District charges for installing and/or removing any flow restricting device and for disconnecting and/or reconnecting service per the District's schedule of charges, then in effect as a charge for installing and/or removing any flow restricting device shall be paid to the District before the device is removed. Nonpayment shall be subject to the same schedules as nonpayment of basic water rates.

- e. **Separate Offenses:** The District provides a 10-day period from the date on the notice of violation in which a violation may be appealed. No further notice of violation for the same offense will be issued during this time. If the appeal is received within this 10-day period, no further action will be taken pending notification of the District's final determination. If the appeal is not received within this 10-day period then the violation stands.
- f. **Appeals to the Board:** An applicant can appeal a decision of the General Manager on a violation to the TSD Board within 10 days of the decision upon written request to the Clerk of the Board for a hearing. The request shall state the grounds for the appeal. At a public meeting, the TSD Board shall act as the approval authority and review the appeal following the regular appeal procedure. The decision of the TSD Board is final.

Section XII. Severability

If any section, subsection, sentence, clause or phrase in this ordinance or the application thereof to any person or circumstance is for any reason held invalid, the validity of the remainder of the ordinance or the application of such provision to other persons or circumstances shall be adopted thereby. The Board of Directors hereby declares it would have passed this ordinance and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that one or more sections, subsections, sentences, clauses, or phrases or the application thereof to any person or circumstance be held invalid.

Section XIII. Repeal

Any prior ordinances or portions of ordinances previously adopted by the District Board of Directors that are in conflict with this Ordinance, including Ordinance No. TSD-88, are repealed as of the Effective Date of this Ordinance.

Section XIV. Effective Date

This Ordinance is effective upon adoption.

PASSED, APPROVED AND ADOPTED this 25th day of January 2016.

TSD RESOLUTION NO. T16-002

**A RESOLUTION BY THE BOARD OF DIRECTORS OF THE
TRIUNFO SANITATION DISTRICT
ADOPT THE STATE WATER EFFICIENCY LANDSCAPE ORDINANCE**

WHEREAS, Governor Brown issued The Drought Executive Order (EO B-29-15) on April 1, 2015, which directed the Department of Water Resources to update the State's Model Water Efficiency Landscape Ordinance (MWELo, or Ordinance); and

WHEREAS, The California Water Commission approved the revised State MWELo on July 15, 2015; and

WHEREAS, the updated Ordinance shall increase water efficiency standards for new and existing landscapes through more efficient irrigation systems, greywater usage, on-site stormwater capture, and by limiting the portion of landscapes that can be covered in turf; and

WHEREAS, the Triunfo Sanitation District/Oak Park Water Service is a water service agency in an unincorporated area of Ventura County and is currently covered under the Ventura County General Plan since June 20, 1989; and

WHEREAS, Ventura County has committed to the State MWELo until the County's Local Coastal Plan (LCP) amendments to landscaping are certified (scheduled for December 2016); and

WHEREAS, the existing water use goals, under the Ventura County Resource Management Agency General Plan, are consistent with the State MWELo objectives for new construction and water conservation techniques, and encourages the use of recycled water for landscaping purposes.

NOW, THEREFORE, BE IT RESOLVED AND ORDERED that the Triunfo Sanitation District Board of Directors does hereby implement the State MWELo, as currently applied under the Ventura County adoption, until such time as the County has a certified and adopted State equivalent MWELo in place.

EFFECTIVE DATE: This Resolution becomes effective immediately upon its adoption.

PASSED, APPROVED AND ADOPTED this 25th day of January 2016 by the following vote:
